The Newmarket Era.

Newmarket, Friday, Feb. 28th, 1862.

General Summary.

Holland Landing Council meets at 8 p.m., at Coates's Hotel, on Monday next.

We understand Dr. Butt lectures before the Aurora Mechanics' Institute, on Wednesday evening next.

A life occurred in Barrie, last week, involving a "trellising" house belonging to F. D. McCauley, Esq., and tenanted by Mr. A. McKay. No insurance.

Both of the Barrie papers are tending the Member for South Simcoe, for his conduct at the N. R. Board, in opposing the demand of Barrie for compensation for the loss of the wreck into that town.

We understand a barn belonging to Mr. James Packer, 2nd Con. of Whitechurch, was broken into one night last week, and some fifty or sixty bushels of wheat stolen therefrom. This is the third instance of the kind within a few weeks.

An election takes place in the Town of East Gwillimbury, on Monday next, (and following day, in case a poll is demanded), to supply the vacancy at the Council Board, occasioned by the retirement of H. D. Strass, Esq., through ill health.

It will be seen by reference to our advertising columns, that Mr. GRAHAM, of the Wellington Hotel, Aurora, is desirous of selling his extensive premises, as he is making arrangements to accompany Mr. J. Leach and a party of others, to British Columbia, early in the spring.

A. Bess & Co., is the name of a new firm, now opening out in the premises recently occupied by Mr. E. Hughes. We understand they are adding largely to the stock of goods purchased from Mr. Hughes, and are making preparations for an extensive spring trade.

The nomination of Mr. McMillan, as a member of the Legislative Council, is a matter of great importance to the people of this Division, and it is with much satisfaction that we learn of his acceptance of the nomination. We trust that he will be able to do credit to the Division, and to the people of this country.

We have to lay before the electors of this Division, the following communication, received on Wednesday evening last, from Wm. McMillan Esq.,—being his final reply to the Convention request, from which, it will be observed, he has concluded to accept the nomination:—

Toronto, Feb. 26, 1862.

posed Representation by Population—have opposed financial reform, and by their lavish expenditure, and the revenues of the country, and have obliged to borrow largely to meet the deficit—have greatly increased the indirect taxation of the country, and spent thousands of the people's money without the sanction of Parliament—and by the demoralizing course pursued in case of contested elections, placed a premium on fraud and corruption at the polls. The electors of the Midland Division are now called upon to pass their opinion on these acts—and we have no hesitation in saying, we believe they will return a righteous verdict. North York has ever been true to great principles; and now, by the aid of Simcoe, we are satisfied the result of the coming contest will be not less gratifying and unmistakable.

Comparative Trade of Newmarket.

On our table this week we find the "Annual Report of the Toronto Board of Trade" for 1861; and as it contains much of interest to this section of country, we make a few extracts. The following are the shipments of Wheat and Flour from each station of the Northern Railway during the year:—

Station	Wheat	Flour
Thornhill	15,254	34
Ridgeway	5,624	710
King	2,651	15,030
Aurora	22,514	91,997
Newmarket	9,325	2,718
Bradford	4,551	197,580
Lefford	78	71,887
Barrie	2,587	17,432
Simcoe	10,474	44,719
Southwold	350	642
Northwold	213	25,412
Collingwood	28,459	74,234
Total	101,990	642,211

From the foregoing table it will be observed, that, with the exception of Collingwood where they have through freight, Newmarket has distanced every station on the line in the shipment of flour; and with the exception of Bradford, where they only shipped between four and five thousand barrels of flour, compared with 22,514 barrels from here, this place has exceeded any other depot on the line in the wheat trade. These statistics are very flattering indeed, and speak well for our future.

In lumber, the stations farther north, such as Barrie, Bell Ewart, Southwold, Collingwood, &c., exceed all others; however, Newmarket shipped 462,000 feet. Of course, this is all sawed lumber; while the amount given from most other stations embraces hewn timber.

In the shipment of wool, notwithstanding the large amount manufactured into flannels, cloths, &c., in the locality, we considerably exceed nearly every part of the line; and in other descriptions of produce we are prone to believe, we compare favorably. As soon as time will permit we shall lay before our readers, the whole R. R. depot traffic of this place for the past year.

With regard to the Northern R. R., we are glad to note, that under the able and careful superintendence of J. L. GRANT, Esq., there was an increase in the earnings of the road, during the year of \$76,482.
